

# Light Up the Oral Cavity Like Never Before

# REVEAL™

WEARABLE  
Fluorescence Guided Dentistry

*Designs for Vision's ground breaking REVEAL™ utilizes a blue excitation headlight with specially filtered eyewear to provide hands-free, vibrant fluorescence visualization in real-time.*

The wearable **REVEAL™** fluorescence guided dentistry system allows you to:

**VISUALIZE** mature biofilm in real time without the use of any pharmaceutical, chemical or dye.

**DETECT** and manage peri-implantitis and confirm successful treatment

**IDENTIFY** and differentiate between active and arrested caries lesions

**CONTROL** and confirm the complete removal of mature biofilm during prophylaxis

Contact us for a demo to see REVEAL™ at work in:

**RESTORATIVE DENTISTRY**

**PERIODONTOLOGY**

**IMPLANTOLOGY**

**CARIOLOGY**

**ORAL HYGIENE**
